

Mfg. PP CORRUGATED SHEETS

INTRODUCTION

Welmon produce the finest polypropylene corrugated sheets in Rajkot. Our sheets are produced with tight tolerances and pass through multiple quality control checks before leaving our facility. 100% recyclable and sustainable, our standard stock sheets are 48" x 96" in white, blue, yellow, dark & light grey, green and black material ranging in thicknesses from 2mm - 6mm. Custom colors, sizes and densities are available based on customers requirement.

PP FLOOR PROTECTION SHEET

PP Floor Protection sheet is a New Generation, cost effective product for temporary tiles protection.

It will protect floors & surface from damage from any type of building or construction work including falling bricks, mortar, debris, plaster etc.

SUNPACK SHEET

Sunpack sheet is a high quality, tough, cost effective, durable.

It is electrostatically double corona treated. It is used in outdoors Yard signs, Warning signs, campaign signs, advertising boards, digital printing and screen-printing etc.

PRODUCT PACKAGING

We offer PP Corrugated sheet which is replaced of corrugated cardboard due to its strong chemical resistance, water proof, printable, light weight, and reusable.

It is widely used in various packaging industries i.e. Logistic, food and Beverages, Textile, Medical, Logistic etc.
